

## 2017 Oral Presentation Rules

The length of the presentation must be 7-10 minutes long.

**If there are more than 20 teams registered for the 2017 event, we are prepared to have two teams of judges incorporating a mix of experienced judges with new judges who have knowledge of the special topic. There are 4 judges on a panel.**

Index cards used as notes for the presentation are allowed, but may be only the small size (3" x 5"). The cards must be rubber banded with a top index card identifying the team name. The index cards must be turned in at the registration table.

All team members must participate in the oral part of the presentation.

Teams are responsible for purchasing their own **standard poster board and standard markers**. The poster must be white and measure 22" x 28" in size (standard). Do not use foam core board or any other type of poster board. Markers can be any color, but **NO** glitter, neon, or scented markers. Only one side of the poster may be used. Prepare and use only one poster for your presentation.

Poster board and markers are the only materials to be used in creating the poster (no construction paper, etc.).

The **back of the poster must identify the school and team name**. Posters must be turned in at the registration table along with any note cards.

There will be an easel for the poster to be displayed during the oral presentation. The oral presentation will be videotaped.

**Note to team members:** Use of the poster does not have to be done by all members of the team. It is permissible to have someone else refer to the poster (point, etc.), while a team member speaks about the poster.

**Remember to make use of training materials and information provided during the Agricultural Soil and Water Conservation Stewardship workshop and online research of the topic specific to Delaware.**
