

Wildlife Audio Challenge

Identifying animals by their calls is a common technique used to monitor species populations. Below is a list of common Delaware birds. During the Envirothon competition you will be asked to identify one of these bird species by their call.

You can practice your bird call I.D. skills by listening to the Stokes Field Guide to Bird Songs CD's or by visiting Cornell's "All About Birds" website: www.allaboutbirds.org.

Eastern Screech Owl

American Robin

Mourning Dove

Eastern Bluebird

American Crow

Wild Turkey

Northern Bobwhite

American Kestrel

Red-tailed Hawk

Ring-necked Pheasant

Invasive Plants To Know

Delaware has a long list of invasive plants that affect native wildlife habitats and agriculture. Below is a list of plants to know for the Envirothon.

English Ivy *Hedera helix*
